POS-T UDO SAFE

THE THEFT-PROOF PRESENTATION SOLUTION

Protection or Visibility?

When products are secured against theft at the point of sale, they're often difficult or even impossible for shoppers to access – leading to frustration and potentially abandoned purchases.

On the other hand, openly displayed products increase the risk of theft, particularly for premium items like cigarettes or razor blades, the total loss can be significant.

Showcase Your Products Securely and Attractively – Made Easy!

The POS-T Udo Safe combines eye-catching product presentation with reliable theft protection. Its modern design, smart technology, and effortless operation make it a true alternative to conventional security solutions. At the same time, the POS-T Udo Safe is a perfect companion for self-checkout (SCO) systems and can be easily integrated into existing SCO setups.

Purchases are triggered with just a finger
– fast, secure, and incredibly simple.
And the best part? No programming or maintenance costs!

Locking away and hiding products is a thing of the past.
Showcase safely. With the POS-T Udo Safe!

POS-TUDO SAFE

SECURITY AND TECHNOLOGY IN DETAIL

Topper

Application Information
- Fully Customisable

Secure Cabinet

Premium lockable cabinet
with crystal-clear glass
and optimal lighting
- ensuring your products are
always on full display

LED Signals

Green = Selectable
Red = 5-second lock
(safeguards against
organised theft)

Activation

Two red lines mark
the one-finger
operation zone
- a simple 2-second press
releases the product

Product Retrieval

The item securely drops
into the tray,
ready for easy collection

Pushfeed system

Proven pushfeed system with
modern technology for
electronic product dispensing

Flexible and Easy: Refilling Made Simple

Unlocking

The POS-T Udo Safe features a secure lock. Opening the glass front automatically deactivates the system for safe access.

Refilling

Stock your products as easily as you would on a conventional retail shelf.

Planogram Updates

Easily rearrange products by sliding the pushfeeds – no programming needed.

Purchase Start

Once refilled, simply close the safe and the system restarts automatically – products are ready to be selected and taken.

Intelligent and Safe: Effortless Product Collection

Ready to Buy

The touch-sensor controlled pushfeed system ensures optimal visibility and presentation of the products. A green LED shows the system is ready for action.

Product Selection

Simply press the marked area for 2 seconds to select your desired product.

Dispensing

The product is released and drops into the retrieval tray. All LEDs briefly turn red – the system is locked for 5 seconds (protection against organised theft).

Product Retrieval

After 5 seconds, the product can be taken and a new selection made.

Make. Shopping. Simply. Better.

QUESTIONS? **WE'RE HAPPY TO HELP!**

The possibilities to boost your point of sale are endless. While there's no single solution for everything, there are numerous custom ideas designed to fit your specific needs and goals. We're here to provide expert advice on all your questions.
